

## *Retreat and climb under the covers for the day.*

Exclusive to Villa Maison, the Napels bed blends the rustic elegance of French Farmhouse with the delicate charm of crafted wrought iron. Simply the perfect excuse for retiring early or luxuriating in a Sunday sleep-in. We've taken what we love most from the European style of relaxed, sophisticated living to create a distinctive style of casual luxury.

Inspired by country villas and holiday escapes where time seems lost, and you have found the perfect place to be.
